Other professional experiences, references

-  I had about 3 year's clinical experience by working in metabolic therapy clinic in Egypt; I used to treat different metabolic disorders with ketogenic therapy and oxy-therapy (ozone & HBOT)
-  Including metabolic management of cancer, epilepsy, neurodegenerative disorders, PCOS and recurrent abortion due to metabolic and epigenetics errors, obesity and metabolic syndrome, metabolic musculoskeletal disorders and post-traumatic brain injury
-  I worked in many medical researches mainly in neuro-metabolism and metabolic management of cancer. One of my research was presented in posture session of Tampa conference; it was a case series of clinical use of KD & HBOT in 3 patients with brain glioma and one presented in barrow institute of neurological disorders.
